

Course Registration

CONTENTS:

- Student Planning Calendar
- Registration Checklist
- Registration Information
- FAQ's on Waitlisting
- Supplemental Workshops

PRINT AND INSERT:

- PASS Planning Schedules (plan several schedules as classes will close/fill up. Prepare to be flexible!)
- Once you register print your CPreg schedule!

TIPS:

- Know your day/time to register.
- Check for HOLDS on your Cal Poly portal under the "Student Center".
- Print out the courses you are waitlisted for (note: Waitlists are removed the Thursday before classes start, at which time you can enroll ONLY with a permission from the instructor).
- Do NOT depend on waitlists to attain full-time status (12 units).

Fall 2009 Student Planning Calendar

Date	Day	Event
April 22	Wednesday	Class schedule is available online PASS (Plan a Student Schedule) available at my.calpoly.edu Open Class List available on CPReg
May 6 - May 28	Wednesday - Thursday	CPReg's scheduled registration rotation period (16 unit limit)
May 6 - September 17	Wednesday - Thursday	WAITLISTING available for CLOSED classes
August 21	Friday	CPReg is closed for maintenance
August 24	Monday	Open Enrollment begins ~ Registration units increased to 22 units for all students
August 24 - September 17	Monday - Thursday	Late registration (additional fee of \$25) *for more information, please visit the Student Financials fee payment page
September 14	Monday	Beginning of Fall term (Faculty only)
September 17	Thursday	WAITLISTING no longer available after 3 p.m. *Please print your schedule with all classes* (including waitlisted courses) *Please remember to print your final schedule*
September 22	Tuesday	FALL 2009 CLASSES BEGIN!
October 1	Thursday DEADLINE	Last day to obtain Permission number and ADD a class via CPReg Last day to DROP a class via CPReg Last day to SWAP a class via CPReg Last day to select or change CR/NC grading via CPReg Last day to submit approved course audit petition to the Academic Records Office
October 8	Thursday DEADLINE	Last day to submit Late Add Appeals
November 9	Monday DEADLINE	Last day to petition to withdraw from a course or the term (except emergencies)
November 11	Wednesday	Academic Holiday - Veterans' Day (Campus Closed)
November 25 - 29	Wednesday - Sunday	Academic Holiday - Thanksgiving (Campus Closed 26th & 27th)
December 4	Friday DEADLINE	Last day of classes. Last day to submit approved emergency withdrawals from a course or the term
December 7 - 11	Monday - Friday	Fall 2009 Final Exams
December 12	Saturday	Fall Commencement Ceremonies
December 18	Friday	Fall 09 grades available on my.calpoly.edu (grade info channel)
December 21	Monday	Academic Probation Notifications emailed to students' calpoly.edu addresses
December 13 - January 3	Sunday - Sunday	Academic Holiday (Campus Closed 24, 25, 31, 1/1)
		CPReg is CLOSED on August 21
		Open Enrollment begins August 24

Future calendars can be found online on the Office of Academic Records website: <http://www.ess.calpoly.edu/records/>

REGISTRATION CHECKLIST

1. PLAN YOUR SCHEDULE AHEAD OF TIME!

Make a list of the classes in which you plan to enroll. Use your major curriculum and the Cal Poly catalog (available at <http://www.calpoly.edu/~acadprog/>) as a source for the class requirements and pre-requisites. Use 'PLAN-A-STUDENT-SCHEDULE' (**PASS**) to view available classes. Make different plans for alternate classes, as classes will close/fill up as registration progresses. **Prepare to be flexible!**

2. MAKE SURE YOU DON'T HAVE ANY REGISTRATION HOLDS!

Be sure to check your registration access and hold status online at my.calpoly.edu. This should be completed several days before registering.

3. WHEN WILL YOU REGISTER?

Students are metered in for registration three times per day, at 7am, 11am and 3pm. The dates and times for each category and each appointment (by the first 3 letters of student's last name) may be found on the "Current Registration Appointment Schedule" available at <http://www.ess.calpoly.edu/records/registration/RegistrationRotations.htm>.

4. REGISTER!

Cal Poly students use **CPReg** to register for classes. You can access **CPReg** on the Registration and Enrollment tab at my.calpoly.edu to register during YOUR appointment day and time, and the schedule you prepared earlier. Refer to the Registration and Enrollment tab at my.calpoly.edu for registration instructions, policies & further information.

5. REGISTRATION PAYMENT INFORMATION ~

You can register for classes without prepayment of registration fees provided you are admitted for the term AND you have no previous balance due or other holds.

Please see http://www.afd.calpoly.edu/Student_Accounts/pmtsched.htm for complete details (specific due dates and amounts). Failure to pay within the required time-frames may result in a hold being placed on your account and classes being dropped.

- **PAYING BY CREDIT CARD or by E-CHECK?**
Pay on the WEB via CASHNET/SMARTPAY
(Credit Cards Accepted: Master Card, Discover and American Express)
- **PAYING BY CHECK OR MONEY ORDER?**
Send your check or money order to the Cal Poly Cashier's Office (Bldg. 01-131E), SLO, CA, 93407.

6. VERIFY AND PRINT YOUR SCHEDULE!

Verify and print your schedule after you register and again before classes begin. Due to New Registration changes, it is critical to keep current class schedule copies for any questions that may arise. Throughout the term students may view their class schedule by logging in to

my.calpoly.edu. (Follow the password management instructions to set up your account-Call 805-756-7000 for assistance.) **YOU are responsible for your schedule, as you will be graded for all enrollments.**

7. REGISTERING FOR YOUR SECOND QUARTER

Undergraduate students will register as "Continuing Students" during their second term of registration and follow the main registration steps mentioned above.

8. MEASLES & HEPATITIS B

Proof of Measles and Rubella Immunization AND Hepatitis B Immunization can affect your enrollment at Cal Poly. Proof of immunizations must be submitted to the Health Center. Visit the Cal Poly Health Services web site (<http://www.calpoly.edu/~hps/>) for additional/helpful information.

9. UPDATE ADDRESS/EMAIL INFORMATION

You are responsible for updating your address/email information while you are enrolled at Cal Poly. If you live in the university residence halls, this is taken care of for you. If you live off campus, you must keep this information current/updated by using my.calpoly.edu and select/subscribe to the 'Personal Info' link.

10. KNOW YOUR PRIVACY RIGHTS

The University can disclose your Directory Information to the public unless you set your privacy restrictions. For more information and instructions, visit our **FERPA** page (http://www.ess.calpoly.edu/records/stu_info/ferpa.htm).

QUICK REFERENCE REGISTRATION TIMELINE
Thursday before classes start - Last day for students to add courses via CPReg
Thursday before classes start - Last night Waitlists will automatically enroll students
Thursday before classes start - Waitlists will be frozen (make sure you have printed your waitlisted courses, as you will no longer be able to view them as of this day)
First 8 days of classes - Students obtain Permissions from instructors in order to enroll in classes.
8th day of classes - Last day for students to enroll using the Permissions via CPReg
8th day of classes - Last day for students to drop courses via CPReg

ALL YOU NEED TO KNOW ABOUT REGISTRATION!

➤ ADDING AN OPEN CLASS

Students may add open classes during the registration rotation period through the last day of open enrollment on **CPReg**, which can be located by logging into my.calpoly.edu and clicking on the **Registration and Enrollment** tab. Open enrollment follows the Registration Rotation Cycle and continues through the Thursday prior to the first day of classes.

➤ WAITLISTING FOR CLOSED CLASS

You may place yourself on a WAITLIST for a closed class(es) and may be automatically enrolled into the class, if a seat becomes available and course requirements are met. You must be sure that all course prerequisites and/or requirements are met prior to enrollment requests to ensure proper Wait-listing registration. Check the Quarterly Schedule and Cal Poly Catalog available online at www.calpoly.edu/~acadprog for course requirement details.

The only way to ensure full-time enrollment is to enroll in classes via CPReg BEFORE the first day of classes. After classes begin, instructor permissions are required to enroll in all classes. For more information about waitlisting please see the “FAQ’s On Waitlisting” page in your portfolio.

➤ DROPPING A CLASS

You may drop unwanted classes on **CPReg** through the 8th day of classes. If you are told by the instructor to drop a class, be sure to do so immediately. If you are enrolled in the wrong class or section at the end of the term, you will receive a failing grade. Correct enrollment is **YOUR** responsibility, so be sure to verify your schedule and drop unwanted courses before the drop deadline via **CPReg**. Following the end of the drop period, if you wish to withdraw from a class, you must do so by submitting a course withdrawal petition with approval signatures. Refer to the Withdrawal Information page for details at www.ess.calpoly.edu/records/registration/withdrawals.htm.

You **MAY** be dropped by an instructor for one of the reasons listed below:

- **Failure to attend the 1st class meeting:** If you are unable to attend the first class meeting, prior arrangements should be made with the instructor. If you do not contact the instructor, you could be line-dropped. The instructor can line-drop students who fail to appear within the first thirty minutes of the first class meeting of a lecture, laboratory or activity class. If enrolled in a lab/lecture combination, be sure to attend both courses during the first session. If you attend the lecture on the first day but miss the laboratory session, or vice versa, you may be dropped from both.

DO NOT ASSUME THAT YOU WILL BE LINE-DROPPED FROM A CLASS. IT IS THE STUDENT'S RESPONSIBILITY TO DROP ALL UNWANTED CLASSES.

- **Failure to meet course requirements:** Some classes have special pre-requisites or restrictions, require department or instructor consent, or are reserved for majors only. See the Quarterly Class Schedule at classschedule.calpoly.edu or the Cal Poly Catalog for course details at www.calpoly.edu/~acadprog.
- **Cancelled classes:** Students will be automatically removed/dropped from cancelled classes.

➤ PERMISSION NUMBER ENTRY

A Permission number is a system generated number students submit on **CPReg** to add classes beginning the 1st through the 8th day of classes. After the 8th day of classes, all unused Permission numbers will be VOID. You can obtain Permission Numbers from instructors from the 1st day through the 8th day of classes if seats are available. Once the Class Number and the Permission Number is entered and submitted successfully, you are enrolled into the class.

Reminder: View and PRINT your updated schedule at my.calpoly.edu . It is strongly suggested that you keep a hard copy of your final schedule for each quarter.

➤ **PREREQUISITE OVERRIDE**

When attempting to register for a course in which a prerequisite is needed, the registration system will prompt the student of the requirement.

IF the prerequisite requirements have in fact been met (at another institution or via another course equivalent at Cal Poly), the student must contact the Department Office offering the course or Advising Center to request a "permission" to get into the class. Please be advised that having a copy of your transcripts from the other institution may be required. If the prerequisite override ("permission") has been approved, the department will then do one of two things:

- They may issue a permission number that you would use in conjunction with the class number to enroll in the class via **CPReg**.
- They may issue a "student specific permission" which would allow you to just go directly into **CPReg** and enroll in the course just using the class number.

*****A permission will only override the 'prerequisite' issue and will NOT override a 'closed class/section full' issue and will not over ride a time conflict.*****

➤ **USING A PRIORITY REGISTRATION**

Undergraduate students are eligible to use a total of three terms of Priority Registration during their career at Cal Poly. First-time freshman are eligible to use a term of Priority Registration for their 4th term of enrollment. Transfer students are eligible to use a priority for their second term of enrollment. As only three terms of Priority Registration are allowed, students are cautioned to plan accordingly. If priority terms are available, the student will have access to register during the appropriate registration time-frame during the Priority Registration window (See the "Current Registration Rotation Schedule" on <http://www.ess.calpoly.edu/records/registration/RegistrationRotations.htm> for dates) and will be prompted as to whether they would like to use a 'priority'.

➤ **HOLDS**

A "hold" may be placed on a student's record for departmental reasons or for other unsettled university obligations. Students may be denied access to the registration system (**CPReg**), transcripts, use of facilities, services, materials, campus credit until all "holds" have been cleared. To clear "holds", students must contact the department responsible for placing it. Students may use the my.calpoly.edu web site to check on the status of "holds". **This should be done several days before registering.**

FAQ'S ON WAITLISTING

What is wait listing?

Wait listing is an attempt to enroll in a class that is already full. If a vacancy occurs in a full class, students are admitted into the class according to their position on the wait list.

IS BEING ON THE WAITLIST THE SAME AS BEING ENROLLED IN THE CLASS?

NO! IF YOU NEED A MINIMUM NUMBER OF UNITS (12) FOR FINANCIAL AID, HEALTH INSURANCE, OR LIVING IN THE DORMS, YOU MUST ACQUIRE 12 UNITS THROUGH CPREG. DO NOT RELY ON YOUR WAITLISTED UNITS! OBTAIN THE MINIMUM NUMBER OF UNITS YOU NEED AND CONSIDER WAITLISTED COURSES AS EXTRA!

What should I do if I can't get 12 units without wait listing a class?

Other options are available. Talk to an advisor about enrolling in a suitable substitution courses. You can attempt to add a class with instructor permission by attending the first class section. If there is space available, professors can provide you with a permission number which will enable you to officially enroll in the course.

When can I wait list a class?

You can wait list from the beginning of the rotation appointments through the Thursday before classes begin (Summer quarter may have a different deadlines). Wait listing starts once a class is "closed" (enrollment is full).

How do I wait list a class?

In CPReg, you may attempt to wait list a class by submitting the request with wait list if class is full. You will be automatically enrolled into a waitlisted class if a seat becomes available and you are eligible for enrollment.

How will I know if I am enrolled in a class that I have waitlisted?

A notification email will be sent to you when a class is added from a waitlist.

How will I know my position on a waitlist?

As soon as you add your name to the wait list, you will be notified of your position on the list.

Can I wait list for lectures and labs?

Yes. You can wait list for related components, such as lectures and labs.

Can I waitlist for multiple sections of the same class?

Yes, as long as the class does not have a related component. However, when you are enrolled from one waitlist; you will be removed from the waitlists from the other sections of the class.

Can I waitlist a class if I am already enrolled in another section of that same class?

No, this is not permitted.

Are there situations that would prevent me from getting enrolled from a wait list?

Yes. If you have any holds on your student account, if you have not completed the necessary prerequisites for that class, or if you have already reached the unit maximum (22 units).

One final note: If there are time conflicts in your schedule, wait listing can occur, but you will be bypassed repeatedly due to the time conflict.

THE THURSDAY BEFORE COURSES BEGIN THE WAITLIST BECOMES "INVISIBLE" TO THE STUDENT'S VIEW. ONLY THE INSTRUCTOR'S WILL HAVE ACCESS TO VIEW WHO IS ON THE WAIT LIST AT THIS TIME. SO, MAKE SURE YOU PRINT YOUR WAITLISTED CLASSES FOR YOUR RECORDS BEFORE THIS HAPPENS!

Supplemental Workshops in Science (SWS) - Fall 2009

Please note: the above schedule is *subject to change* - Last updated: **May 6, 2009**

For current program information:

- Visit the SWS web-site at <http://www.sas.calpoly.edu/sws/index.html>
- Call Student Academic Services at 756-2301, or
- Email sws@calpoly.edu

Note: Workshops meet in the evenings due to severely limited room availability earlier in the day.

What is Supplemental Workshops in Science (SWS)?

It is a program that offers workshops that meet twice a week throughout the quarter for students enrolled in any lecture listed on the other side of this sheet. ***During the workshop, you will compare notes, discuss important concepts, develop study strategies, and prepare for tests by taking practice exams.*** You will work closely with other students and earn one unit of elective credit. Workshops start the first week of classes and continue until the last week before finals. You are expected to attend your workshop regularly; bring notes, texts, and questions; participate in discussions; and learn to work together as a team.

Why should I sign up?

There are several reasons: concept mastery, a higher grade, and increased academic self-confidence. **Since SWS began in 1991, an average of 79% of the students who regularly attend their workshop pass the lecture with an A, B or C compared with 69% who do not enroll in the workshop. That's a significant advantage!** In addition, you will also learn useful study skills that will help with other classes.

Who leads the workshop?

Every workshop is led by an upper division student who has taken the class before and earned a strong grade in the course. The facilitator guides the discussion and keeps things on track. Your facilitator attends **every lecture** in order to stay current on what is happening in your lecture.

How do I enroll in a workshop offered through Supplemental Workshop in Science?

Enrollment must occur via CPRReg!

First-time freshmen in the Fall of 2009: an email will be sent to you in early summer inquiring if you wish to “opt-in” to the workshop program. You must respond “yes” to be considered for a workshop for your corresponding science class.

Continuing students and new transfer students: add the workshop on your scheduled enrollment appointment date or no later than the Thursday before classes begin, which is the last day to add courses via CPRReg. **Tip:** *Add the workshop during your enrollment appointment!*

All students: you may also try to add a workshop after the quarter begins, provided spaces are available and only if you are enrolled in the corresponding science course (see list on reverse side). If adding after classes begin, you will need to obtain a class Permission number from the facilitator leading the workshop. The last day to enroll in courses using Permission numbers via CPRReg is the 8th day of classes. After that day, all workshops are closed just like any other class*. Auditing is not permitted.

So remember:

- ✓ **Indicate your “opt-in” preference when prompted if you are a freshman (for Fall only)**
- ✓ **Add your workshop via CPRReg no later than the Thursday before classes begin**
- Or-**
- ✓ **Obtain a Permission number at the Workshop, provided spaces are available**
 - Attend the workshop and obtain a Permission number from the workshop facilitator
 - Submit your Permission number via CPRReg on or before the 8th day of classes.

For questions regarding CPRReg and registration deadlines, please visit the Office of Academic Records webpage at [http://www.ess.calpoly.edu/ records/](http://www.ess.calpoly.edu/records/) or contact the SWS staff at (805) 756-2301.

*A “Late Add Appeal” process is available and may be approved in special cases if class spaces are available, consult the workshop facilitator and/or the Office of Academic Records. Usually, “Late Add Appeal” deadline is early in Week 3 of the term.

Cal Poly Supplemental Workshops in Math (SWM) - Fall 2009 Offerings

How Do You Enroll in a Supplemental Workshop in Math for Fall Quarter?

First-time freshmen for Fall 2009: an e-mail will be sent to you in early summer inquiring if you wish to “opt-in” a workshop program. You must respond “yes” to be considered for a workshop for your corresponding math class.

Continuing students and new transfer students:

To reserve a space in the course & workshop, email your request to: swm@calpoly.edu Include in your request your full name, phone #, and the math course and workshop section you are interested in.

If you act in a timely manner and a space in a desired math course/workshop section is available, you will get an email response to verify that a space has been **reserved** for you in the math course and workshop. However it will be **your responsibility to add the math course/workshop through CPReg by Wednesday, August 26th**. If you do not add the math class and workshop by **08/26/09**, your space reservations will be cancelled.

Watch for a response to your math class/workshop request. If you do not receive a response in **3 working days**, please re-submit request.

Only the listed courses have workshops! **Spaces are available on a first-come, first-served basis.**

Example: The workshop that goes with MATH 100-02 is MATH 110-01 (they are directly across from one another)

You may also add a workshop once the quarter begins, provided spaces are available and only if you have enrolled in a corresponding math course that is tied to your workshop. If adding once classes begin, you will need to obtain a class **permission number** from the workshop facilitator. The last day to enroll in a workshop using a permission number via *CPREG* is the 8th day of classes. After that day, all workshops are closed just like any other class*.

- Remember:**
- ✓ Indicate your “opt-in” preference when prompted, if you are a freshman
 - ✓ Add your math course/workshop, if reservations were provided, via *CPREG* no later than August 26th
 - ✓ Obtain a permission number at the workshop, provided spaces are available, once classes start

Supplemental Workshops in Math

What's in it for YOU?

The courses offered through the Supplemental Workshops in Math offer you specialized workshops that are designed in conjunction with specific Cal Poly math courses.

Workshops cover the following in a math laboratory setting:

- concept enhancement
- problem-solving
- review
- mock quizzes/tests
- question/answer sessions

Quarterly, approximately 83% of the students who enroll in Supplemental Workshops in Math earn a passing grade of A/B/C in their math course

Workshops are interactive -- that is, the more students are involved, the more they learn. Consequently, workshop hours function as focused study time to enhance your learning of the material--and support your efforts to achieve high grades in mathematics courses. Students commit themselves to a regular Cal Poly math class and two sessions per week in a specialized workshop (math laboratory).

Who leads the workshop? An upper division student, who has taken the class before and earned a strong grade, facilitates the workshop. Facilitators attend your class lecture to stay current with what is occurring in your class and also maintain constant communication with your class professor.

The Supplemental Workshops in Math Program at Cal Poly has been successful for over twenty-one years in providing specialized, unique environments for study and learning. These workshops are designed to link with specific sections of math courses so that all participants are working on similar material from the same instructor at each workshop session.

What do former students say about Supplemental Workshops in Math?

"This workshop has put the pieces of the puzzle together for me. . . I am getting a much higher grade than I imagined possible. I was praying to just pass this class, but with the help of the workshop, I may even get an A (if I keep studying hard!)"

"The math workshop confirmed everything done in class, so I was truly able to understand the concepts. It is also the only reason I am passing."

"I would recommend a math workshop to anyone because it forces a good work ethic. I felt that I had a deeper knowledge of each topic beyond what I learned in class."

"The problems done in Workshops are a great addition to the lecture in class."
